Dear all,

As strange it may sound, I can firmly state that Kagame has always been scared of Rusesabagina. Not much that RUESA may hurt him otherwise. I will say more of a jealousy feeling.

I recall at the time we start working on discrediting him (Rusesa). The general view among us was that the man was using the platform given to him by the Hotel Rwanda to promote a kind of review of the entire genocide story. In the other hand there was the fear of the return of pariahism in Rwanda with him being the man promoter.

But in real situation and from a lot of peoples inside the RPF structure this parameter of thought was unfounded, it did not just match the reality. That was also the reason there was not many peoples to join us in fighting him from the start. I recall speaking to one of the closest advisors to Kagame from the first days of the struggle. And I was told that the bout against Rusesabagina was more of a PERSONAL matter between him and Kagame. The president was not happy to see the man getting all the attention from the world.

As many of you will remember, it was very hard for us to get peoples who were inside the Hotel des Mille Collines during the time of the genocide to help us discredit him. Keep in mind that within the hotels during that time there were some of the peoples who make up the regime today. Does it come up to mind to anyone that the prime minister of Rwanda, Mr. Makuza was inside the hotel at that time? Does anyone remember of Makuza coming out against Rusesabagina during our campaign? No! Not at all! He may have done it privately. But he never came out officially to speak up against him. I myself brought up the Makuza's case to some of the guys who are supposed to be dealing with him in a case of impunity suspicion... and was told that he was being observed... It was not only Makuza, there were a lot of peoples we had under the radar screen...

But most of the peoples (within the system) who were inside the hotel did not want to voluntarily cooperate with us. The officials who did it did so under heavy pressure. Some did not want to be suspected...

As most of them understood that this was a part of Kagame's madness and thirst to be seen as the only hero... Very childish indeed. But the truth...

This thing about Rusesabagina connection with the FDLR is a pure lie. A straight fabrication. Which will not even hold.

I am the one who was monitoring for Kagame all Rusesabagina [moves](#). At no time did I get this type of collaboration between him and the FDLR. The only thing I caught from him was a conference he was giving in DC, when he was saying that the government of Rwanda should agree for a dialogue with the opposition. He even said that he did not believe in war as a way of resolving political problems. Should I remind people that at that time even for me it was unconceivable that the government should engage in any kind of dialogue with the FDLR.

Today Rusesabagina is a member of the RNC, the biggest threat to KAGAME. Therefore all batteries are light up to neutralize him. As with him the RNC is too powerful.

I have heard that Rusesabagina may be on his way to the United States, this time not as Rwanda Hotel hero. But as a representative of a movement which is denouncing and ready to operate a change in Rwanda. For that reason the Rwandan government has decided to move against him.

but they have already lost the battle. I myself will help mobilize Rwandans and CONGOLESES to be where he will be speaking and to confront any hooligan who will be sent by the Kagame regime to disrupt Rusesabagina. Maybe those hooligans will explain to the Congolese diaspora whatever happened to the 4 millions of Congolese who died due to Kagame's madness in the past century. I am a member of the Congolese community in North America (USA, Canada). I have over 5000 e-mails of Congolese in the United States. Beside being myself active in communication within that diaspora.

So to my good friend James Kimonyo the ambassador, I suggest to be highly careful.

Finally. This is an article from Rusesabagina describing himself what Kagame's game has been against him.

Dear all,

This is very amazing. I have a great respect for my good friend James Kimonyo. But there are times when friends have to disagree. James knows very well that this is a lost fight on [Rusesabagina](#). It was tried before when he was still in South Africa... Long before we met in New York when Kagame invited me to congratulate me on the my job about taking care of Rusesabagina. He remembers it very well. Should he get some kind of TROU de memoire. I will surely remind him about it.

The accusation on Rusesabagina are based on false premises from the start. The problem with Rusesabagina started when he became famous and took advantage of it to express his views about Rwanda. I, Sharangabo Rufagari started the war against him after I had received from Kagame himself the suggestion to go on! On him. Before even the urubuga rw'intore knew where the game had started... and admonished me for attacking him... Aimable Bayingana and the rest did not know that the Rusesabagina ball was underway and directed by Kagame in person. I still have the letters from himself directed to me by Davinah Milenge her private secretary. Those guys did not know anything about the game going on. When Karegeya says that Kagame direct everything he is right! I know about it very well!!! Those aspirant rwandan diplomats should check with Eugene Munyakanza who use to be the Rwandan ambassador to Canada.

The attack on Rusesabagina is my product... literally mine. Then I thought I was serving Rwanda on fighting the rise of Parmehutu Ideology. Actually I have found out that indirectly Kagame was using me to fulfill his thirst of EGO. This had nothing to do with the nation as such.

James Kimonyo does not mean what he is doing about Rusesabagina. He just accomplishing a job is payed to do. And definitely he is gonna be ridiculised big time...

On final note for some of you who do not know about it. RUSESABAGINA is coming back for a tour in North America. Very soon....! Keep posted. he has a great support of many Rwandans, congolese, americans, canadians and others.

Hotel Rwanda hero is BACK. Keep posted.
